OBJECTIVE

Aspiring **Data Science & AI Engineer** currently pursuing B.Sc. (Hons) IT and an Advanced Data Science & AI program from IIT Roorkee (E&ICT). Passionate about data analysis, intelligent systems, and applying Python, statistics, and visualization tools to solve real-world problems. Actively building academic and individual projects while strengthening analytical and programming skills.

EDUCATION

B.Sc. (Hons) Information Technology — AKS University	2023 – 2027
Advanced Program in Data Science & AI — IIT Roorkee (E&ICT Academy Via Masai School)	Ongoing
12th (Science) — School of Excellence, Satna	Grade: A
10th — School of Excellence, Satna	Grade: A+

EXPERIENCE (2 Years)

Office Executive — Nirmaan Mega Venture	2024 – 2026
Paytm Collage Ambesstor — Paytm Company	(ongoing)

TECHNICAL SKILLS

Programming : Python (Fundamentals), Java, C, C++

Concepts : Basic Data Structures, OOP, Problem Solving

Data Science & Analytics : NumPy, Matplotlib, Seaborn (Entry Level) , Data Cleaning, Data Visualization

Databases : SQL, MySQL

Visualization Tools : MS Excel, Python Libraries

Backend / Cloud : Firebase (Basics), Supabase (Basics)

Tools : Git, GitHub, VS Code, Jupiter Notebook

SOFT SKILLS : Analytical Thinking , Problem Solving , Communication , Teamwork , Continuous Learning

PROJECTS

Accident Detection & Emergency Alert System

- Built sensor-based accident detection system with automatic alert mechanism.
- Implemented real-time emergency notification workflow.

Zomato Data Analysis Using Python

- Cleaned and analyzed banking datasets using Python.
- Generated insights using data visualization libraries.

AI Recommendation System

- Built entry-level recommendation model based on user preferences.
- Explored fundamentals of AI system design.

CERTIFICATIONS

Advanced Data Science & AI Program —	IIT Roorkee (Ongoing)
GenAI Data Analytics Job Simulation —	Tata (Forage)
Cybersecurity Analyst Simulation —	Tata (Forage)
Cybersecurity Course —	Tech Mahindra Foundation
